- Game itself is one big BUG
- Bugs destroying the game
- Lot of bugs
- Few Bugs
- You can use them for speedrun
- Nothing

====[♦ Others:]====

Multiplayer: Yes

Coop: Yes

Singleplayer: Yes. I remember the Early Access days, when I found this map on the list, and I didn't do any other ones until I completed it.

Ah, feels good man. Feels good indeed.. Almost like a "Real" Leisure Suit Larry.

They have been doing a great job. The game is modern in every way.

Companies, social media, silly presidents, they all have to stand charge in this game!

And of course, Larry is a true sleezebag, just as usual.. i feel like this should be a free ♥♥♥♥♥ app. like Nitendo classical game in 80s. ID RATHER KILL MYSELF THAN PLAY GISH AGAIN. Staff isn't great but the swords alright and the meteor shower is awesome and the pointy hat alone is worth the money! 7/10

This is a really solid, cute little platformer with a hook mechanic and low-res art style. Controls are keyboard to move and mouse to attack and aim the hook. The character movement is quick and not the easiest for precision platforming, but the game (mostly) doesn't demand anything beyond the tools it gives you. The story and dialogue is adorable.

It's a one-sitting game, so the \$9 price tag might seem like a high ask, but if you're looking for a fun speedrun project, I recommend giving it a look. You could stretch the 1-2 hour playtime to dozens of hours trying to get to the top of the leaderboard (or especially do full game runs). I really enjoyed it.. The game does not even start.. refund ?!

see link.. anyone knows to fix it ?

It only gets better and better and better. Then you will find yourself going online to watch the newest ones not out on Steam or dvd/blu-ray yet.. If you enjoy strategy games that pose varying levels of difficulty (if sentinels are involved then it gets a lot tougher) then this may be a game for you. Personally, the custom character creation is my favourite part of game. Then comes the fact that every level you encounter has a COMPLETELY different layout, unknowing of what may lay behind every door and if the decision to open a door or blast open a door may:

- [1. Get your Deadnaut 'decapitated' by a sentinel.](#)
- [2. Get your Deadnaut dragged away and torn to ribbons.](#)
- [3. Become susceptible to a horde of enemies.](#)

... and etc. One of the greatest elements this game poses is the feeling of unknowing what lies behind every door, or what may be in the very room your deadnauts are searching. It can feel like no one is ever safe and pulls it off very well.. This game is primarily "challenge jumps" in 3D from one floating platform to another. Sometimes there are 8 or 12 in a row, miss one, you die or run the long way around and start over.

Made it to level 10 before I rage quit.

Pros:

- [* graphics are fun and cartoony, nice to look at](#)
- [* music is appropriate and lends nice atmosphere](#)
- [* works well with Steam Controller](#)
- [* fair/balanced amount of save points in most parts of the game](#)

Cons:

- [* non-stop challenge jumps and falling to your death is frustration gallore!](#)
- [* camera is horrible, constantly going behind walls so you can't see the playing field](#)
- [* VERY few puzzles](#)
- [* expected farther "view distance" from a game made with Unity, the draw-in is very very distracting](#)
- [* new swords just appear between levels with no explanation: you don't earn a sword at the end of a level or for defeating a boss, you just have a new sword for no reason when a new level starts](#)

Typical game play:

- [* jump to a floating platform, jump to a floating platform, jump to a floating platform, fall to my death](#)
 - [* jump to a floating platform, jump to a floating platform, fall to my death](#)
 - [* jump to a floating platform, jump to a floating platform, jump to a floating platform, get shot by a skeleton, fall to my death](#)
 - [* jump to a floating platform, jump to a floating platform, fall to my death](#)
 - [*finally make it to the 12th platform, grab the gem, get killed by a shooting orb creature, die](#)
 - [* jump to a floating platform, jump to a floating platform, fall to my death](#)
- Oh for the love of Bill! {RAGE QUIT!}. Make sure you understand that Steam version is exactly the same as mobile one, and go on, buy it, pay some respect. Mouse clicks, don't you just love them?. Little Storm is a very short yet adorable slice-of-life comic, showcasing the childhood and daily routine of three young siblings who live in a rural Indonesian settlement. It takes less than one minute to download, and about three to "flip" through. A great read if you're feeling down, would recommend to anyone with time to burn.. There are a few newer Luxor-games, but I didn't like them. This one is very good though.. Building and improving on Age of Wonders, Shadow Magic contains a lot of the same 4X gameplay with some of the irritating kinks of the original Age of Wonders ironed out. I was a little disappointed that, unlike the original, there is no "evil" campaign, but the gameplay is solid and even improved. I'd say you might even want to skip the original and go straight to this one.. A bad copy of
